

<b>Subject Name</b>	Research Project
<b>Subject Code</b>	HTM599
<b>No. of Credits</b>	6 Credits
<b>Total Contact Hours</b>	26 Hours
<b>Prerequisite</b>	Research Methods or equivalent

**Subject Description:**

The purpose of this subject is to help students to demonstrate their abilities to conduct an independent research using different research techniques. Students will develop and apply their skills to conduct a thorough and critical review of the literature and be familiar with previous relevant work in his or her area of interest. Students will learn how to analyze and communicate the significant results of that work.

**Intended Learning Outcomes:**

*Upon completion of the subject, students will be able to:*

1. Make integrative linkages among various subjects as well as between learning and real-life work experience.
2. Demonstrate an understanding of relevant literature in the selected topic area.
3. Analyze basic research data in a systematic way and to a professional standard.
4. Identify and discuss a topic in its wider context, sustain argument, and present conclusions related to policy and practice implications in business and management.
5. Demonstrate deeper self- and social-awareness by being sensitized to the dual roles of researcher and manager.

**Assessment Weighting:**

Continuous Assessment      100%
